Bachelor of Science in Business Administration in Information Systems

School of Professional Studies

PROGRAM OVERVIEW

The Bachelor of Science in Business Administration degree program's goal is to develop in each student a broad understanding of how the elements and processes of business organizations relate to one another and to the external environment. Degree requirements are designed to develop proficiency and confidence in the functional areas of business. In addition to providing the technical skills required for a professional level business position, the ethical considerations of business are emphasized. The information systems concentration prepares students to solve technical, customer service and management problems in governmental, business and other community organizations using information management principles and information technology skills.
