Master of Arts in Administration-Applied Administration

School of Professional Studies

PROGRAM OVERVIEW

The Master of Arts in Administration program is unique among graduate programs in South Texas in that it provides participants with core competencies in administration as well as essential knowledge, skills and abilities. The curriculum is designed to develop ethical and accountable administrators who are able to conceptualize and critically analyze complex organizational issues within their specialty areas and who are able to persuasively communicate toward a course of action that is in the best interests of those they serve.

The MAA in Applied Administration is designed to offer a program of study that allows students to personalize their degrees in order to gain the knowledge and skills required of their career fields. This concentration also allows students to avoid duplication of previous coursework, training or experience.
